# LEARNING TO SPEAK ENGLISH, PROGRAM TWO

## Purpose of the Program

These CD's and printed materials were designed to provide further practice for newcomers who are learning to speak, read and write the English language. These CD's, along with the two CD's in *Learning to Speak English, Program One* include the 1000 basic words which make up 90% of all commonly used written English. Many of the words appear more than once because they have multiple meanings or pronunciations. The most commonly used words appear over and over. The most common prefixes and suffixes are used as often as possible.

In addition to these 1000 words, there are over 700 words of particular interest to immigrants seeking jobs, homes and citizenship in the United States.

Although many schools have excellent ESL instruction, there are few opportunities for guided practice. Imitation and repetition are basic to the achievement of confidence and fluency with good pronunciation. Comprehension requires translation or interaction. There are few materials available which provide comprehensible independent practice. *Learning to Speak English, Program One* and *Learning to Speak English, Program Two* can fill that gap.

This program has two fully translated CD's. There are nine titles in all and they are:

1. Finding a job
2. Finding a Place to Live
3. Emergencies
4. Visiting the Doctor or Dentist
5. Shopping
6. Banking
7. Dining Out
8. Education
9. Citizenship

Each sentence to be practiced is SPOKEN first in the primary language, then in English. The English is followed by a pause long enough to allow the learner to repeat the words. Since these materials do not depend on WRITTEN translation, they may be used as a secondary activity while working, riding a bus, cooking, etc.

They may also be used by learners who have not had the opportunity to achieve literacy in any language.

ALL PAGES IN THIS BOOK MAY BE REPRODUCED BY THE TEACHER FOR CLASSROOM USE ONLY.

## Nine Easy Suggestions for Teachers or T.A.s

These materials were created for the purpose of providing independent practice for students learning to speak English, without adding to the workload of the teacher. Having taught for many years, it is our belief that teachers have quite enough to do already!

### Step One

Use these CD's with students who speak and read some English or who have used *Program One* enough to find it boring.

### Step Two

Allow student to listen to one of the CD's (they are not sequential) and look at a read-along sheet.

### Step Three

Encourage him/her to listen two or three times. Push the student to repeat the English aloud. IMPORTANT!

### Step Four

Introduce a work sheet for that CD. Say "Listen, read, speak and do this if you can." Check it or ask a student to check.

### Step Five

ALTERNATE IDEA: For the less confident, have another student show the learner how to make flash cards (page 72). Encourage the learner to practice with them before trying the work sheet.

### Step Six

Introduce other work sheets for that CD.

### Step Seven

ALTERNATE IDEA: For the bored and restless, change to a new CD. Go back to the first CD with a different work sheet later.

### Step Eight

USE THE FLASH CARD MASTERS! These are words to serve as signposts as students pick their way through the read-along pages. Remember they will be practicing 90% of all of the words commonly used in written English. It's nice to see a familiar word or two along the way!

### Step Nine

Follow this pattern as students practice with the materials. Use the test pages as tests or use them as work sheets to provide writing practice. Make up activities of your own and if they work well, share them with us!

PHOTOCOPY A STACK OF GENDER CHARTS FOR STUDENTS TO USE AS THEY LISTEN TO THE CD'S! SEE PAGE 79.

## Full Text of Instructions, Spoken in Primary Language Only

The following instructions are heard only in the primary language.

### **Part One**

As you read along in the book you will see some underlined words. These words refer to either the male or female gender. In some sentences you may want to substitute man for woman, son for daughter and so forth. A list of these substitutions will be found at the back of this book.

### **Part Two**

As you read along with this CD, some words appear in bold type. These are parts of the body. You may want to change that word in the sentence to explain your particular problem to the doctor or nurse.

## Instructions For Making and Using Flash Cards

1. FIRST! Duplicate a copy of each flash card master for each student. (Masters are on the last pages of this book.)
2. Provide scissors, glue, 3x5 index cards and a pen or pencil.
3. Make a photocopy of a flash card master. then demonstrate making a flash card by cutting a word from the copy and gluing it on an index card.
4. If bilingual dictionaries are available, demonstrate finding a word and writing the translation on the back of the card; or if no dictionary is available. ask an English speaking student to draw a picture of the word on the back of the card.

The flash card master words are the key words used in the practice sentences. The cards may be used for individual study, for printing practice, speed drills, “word races”, matching games, alphabetizing, or for pronunciation practice with the help of an English-speaking peer.

You may want to choose a peer tutor to drill the student and help with pronunciation.

Once these words are familiar, reading along with the CD’s becomes much easier and more fun. The familiar words offer “signposts” along the way to help students decipher other words.

The more you do with these key words, the sooner your student will speak, read, and write English!
